THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

tervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter. The aubscription is fixed at \$6.50 postage paid, per annum, payable by non-residents Government House, North of Public in Hongkong half-yearly in advance.

The publication includes papers original

and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works hearing on Chinese matters. Great attention is also paid to the Review

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly. and enterprising Review. It is a sixty peged, bi-monthly, repertory of what scho- Sailors' Home, West Point. lars are ascertaining about China. lecture on Chinese Poetry in this volume is alone worth the price of the Review. Trubner's Oriental Record contains the following notice of the China Review:—" This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which uneful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese EWEN, FRICKEL & Co. scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Leggo's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh | Half hour, 10 cts. | Hour, 20 cts. century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to behoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL

This paper is now issued every

day. The subscription is fixed at Four Dollars per annum delivered in Rongkong, or Seven Dollars Fifty Cents including postage to Coast ports. It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course

derived from the native community,

amongst whom also are to be found the

guaranters and securities necessary to place it on a business and legal footing. The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Salgon, and other places frequented by the Chinese, —consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to adverthers are therefore unusually great, and the foreign community generally will find

The Postmaster issues the order, sends it on in the envelope, and returns the change, if any, by first opportunity, with a receipt for the letter, if it

were to be registered, as it always should be. Care should be taken to send these applications in time, as the Money Order Offices close some hours before the departures of the mails. 4.—No order must exceed £10, or \$50 or include any fraction of a penny, nor will
